

The Do Not Call List is a true blessing for residents in the State Of New Jersey. No more do we receive telephone calls at the dinner hour or 9 a.m. on a Sunday morning. Do not reverse this law. I do not want my phone number given out to anyone whom I do not authorize or know on a personal level. Tele-marketer's are very intrusive. I as a private citizen should be able to have a say in who I want calling me at my home.
